Compare the cost and quality of over 200 common health care procedures at Maine health care facilities at comparemaine.org

making health care more transparent

The Maine Health Data Organization, in collaboration with the Maine Quality Forum, is required by Maine law to promote the transparency of healthcare cost and quality information for common healthcare procedures via a publicly accessible website.

The cost and quality of healthcare procedures can vary widely among facilities. You may have a choice in where you receive care. CompareMaine shows the average cost of common healthcare procedures at different facilities in Maine. You can also see patient experience ratings and how Maine hospitals compare on patient safety.

here’s what you can find on CompareMaine:

how to use the CompareMaine website:

Maine Health Data Organization launched comparemaine.org in October to let people compare costs and patient experiences at more than 160 Maine health care facilities.

CompareMaine was developed by the Maine Health Data Organization (MHDO) in partnership with Human Services Research Institute, NORC and Wowza. A Consumer Advisory Group was convened to provide feedback throughout the website development process.

CompareMaine is for informational purposes only. MHDO has made every effort to provide accurate information. Cost estimates are based on typical payments and do not represent what you should expect to pay. Consult your provider and insurer to get a personalized estimate. Neither MHDO nor this website endorse any particular healthcare facility or physician in the State of Maine.
