SUMMARY

This bill amends the law governing the public disclosure of health care prices. It:

1. Specifies that it is a health care entity that must maintain a price list and defines "health care entity" to mean a health care practitioner, a group of health care practitioners or a health care facility;

2. Clarifies the information that must be included with the price list; and

3. Eliminates the requirement that health care entities make available copies of the price list upon request.
