

MHDO access to Medicare data-

Current	Option for the future
Annual extract.	Quarterly extract (beginning with 2013 data).
13 month lag at end of CY/complete file.	5-6 month lag at end of quarter (have asked CMS for updated claims maturity factors).
CY2011-Medicare Data will be available in February 2013. MHDO should have in house by mid March 2013.	Example: Q12013-Medicare data available in August/September 2013. Q22013 data available in November/December 2013.
CY2011 data included in June 2013 release of APCD.	Quarterly data included in APCD depends on receipt of data.
\$45,000 (estimated cost).	No difference in cost.

Medicare data that is currently provided:
