Quality Data Source

The data presented are collected by Centers for Medicare and Medicaid Services (CMS) (<https://www.cms.gov/About-CMS/About-CMS.html>) from patient surveys, the Joint Commission (<https://www.jointcommission.org/>), and the National Healthcare Safety Network (<https://www.cdc.gov/nhsn/about-nhsn/index.html>).

Measure Period

The data are updated annually—most data displayed are from July 2016 to June 2017. The detailed source and measure period is included on the pages of the quality section of HealthCost.

Cost Data Source:

The information is derived from claims data collected from New Hampshire's health insurers and stored as a part of the [Comprehensive Health Care Information System \(NHCHIS\) \(https://nhchis.com/\)](https://nhchis.com/).

Measure Period:

The rates on this website are based on actual patient experiences between October 2016 and December 2017 and are increased to recognize price inflation of 5%. Periodically, there will be updates of pricing, health care providers, and health care procedures.

This website is for informational purposes only. NHID has made every effort to provide accurate information. Cost estimates for medical and dental procedures are based on typical payments and do not represent what your bill will be. Consult with your provider and insurer to get a personalized estimate.
