Overview

This report is comprised of tables for select data elements and ratios containing all of Maine's non-governmental hospitals, based on unconsolidated data obtained from audited financial statements. These are arrayed by hospital peer groups as determined by the Maine Hospital Association (MHA). The peer groups are based upon bed size, revenue, critical access designation (CAH), and specialty.

The MHDO Hospital Financial Reports were designed to standardized the reporting of key hospital financial indicators to allow for comparisons across hospitals; however, given the complexities in the hospitals structure and in accounting practices, leading to scenarios where the way in which a hospital and its activities are reported in an unconsolidated form are more comparable to another hospitals consolidated reporting. For example, some physician practices are departments of the hospital (and would be included in the hospitals unconsolidated reporting) where for another hospital the physician practices are a subsidiary of the hospital (and would not be included in the hospitals unconsolidated reporting but rather captured in the hospitals consolidated reporting).

Financial ratios are one critical component of assessing a hospital's financial condition and are widely accepted in the industry. The ratios are derived from financial data elements found in the standardized report and represent financial indicators that can be classified into the following five categories: profitability, liquidity, capital structure, asset efficiency, and "other". Users of financial ratios are encouraged to consider a broad range of ratios from across all five categories and across multiple years to develop a comprehensive representation of a hospitals financial position. Below is a summary of the of the different ratios:

- 1. **Profitability Ratios:** Provides information on the ability of the organization to produce a profit. Six measures of profitability are included: Operating Margin, Non-operating Revenue Margin, Total Margin, Return on Equity, Net Operating Income (Operating Surplus or Loss), and Total Surplus/Deficit (Total Surplus or Loss).
- Liquidity Ratios: Measures an organization's ability to meet short-term obligations, collect receivables, and maintain cash position. Five measures of liquidity are included: Current Ratio (Without Board Designated and Undesignated Investments), Days in Accounts Receivable, Days Cash on Hand (Current), Days Cash on Hand (Including Board Designated and Undesignated Investments), and Average Payment Period (Current Liabilities).
- 3. **Capital Structure Ratios:** Measures how an organization's assets are financed, and its capacity to pay for new debt. Four capital structure ratios are included: Equity Financing, Debt Service Coverage, Cash Flow to Total Debt, and Fixed Asset Financing.
- 4. **Asset Efficiency Ratios:** Measures the relationship between revenue and assets. Two asset efficiency ratios are included: Total Asset Turnover and Fixed Asset Turnover.
- 5. Other: These ratios/data elements are included but cannot be classified into the other categories of financial ratios. One ratio and sixteen data elements from the financial data template are included: Average Age of Plant (Depreciation Only); Net Plant, Property, Equipment; Cash & Investments (Current Assets); Current Assets Whose Use is Limited; Trustee-held Investments; Board-Designated & Undesignated Investments; Fund Balance-Unrestricted; Temporarily Restricted Net Assets; Permanently Restricted Net Assets; Total Gross Patient Service Revenue; Net Patient Service Revenue; Total Non-operating Revenues; Bad Debt (Provision for Bad Debt); Free Care (Charity Care); Total Operating Expenses; Total Advertising Expenses; and Salaries and Benefits.

Consolidated vs. Unconsolidated Reporting

The primary difference between consolidated and unconsolidated reporting is that the consolidated data reports all activities of a health system and its subsidiaries as a combined entity, while the unconsolidated financial statements report activities as a separate entity.

For consolidated health system data see the consolidated report.

Data Release Notes

Calais Regional Hospital - On February 19, 2021 Down East Community Hospital, petitioned to acquire Calais Regional Hospital with the bankruptcy court and was approved by bankruptcy judge presiding over the chapter 11 bankruptcy case of CRH on March 24, 2021. Calais Regional Hospital is now called Calais Community Hospital and is a subsidiary of Down East Community Hospital.

Mid Coast Hospital - On 1/1/2021, Mid Coast Hospital merged into Maine Health System and became the 9th hospital of Maine Health System unification. Mid Coast Hospital now utilizes the d/b/a of Mid Coast-Parkview Health (Mid Coast Hospital).

Mayo Regional Hospital - On 3/1/2020 Mayo Regional Hospital merged into Northern Light Health and became the 10th hospital of Northern Light Health system. Last reporting year for Mayo as a stand alone entity was FY 2019.

MaineHealth Unification - Effective 1/1/2019, the MaineHealth System is comprised of Maine-Health Services (formerly named MaineHealth), the parent organization, and its subsidiaries. The subsidiaries of MaineHealth Services include MaineHealth, NorDx, MaineHealth Care at Home, and The Memorial Hospital at N.H. The subsidiary MaineHealth, whose former legal name was Maine Medical Center, includes eight acute care hospitals that were formerly individual entities until the execution of the unification merger. These hospitals are now local health systems within the subsidiary named MaineHealth utilizing d/b/a's of Maine Medical Center, Southern Maine Health Care, LincolnHealth, Western Maine Healthcare (Stephens Memorial Hospital), Franklin Community Health Network (Franklin Memorial Hospital), Maine Behavioral Healthcare, and Coastal Healthcare Alliance (Waldo County General Hospital and Pen Bay Medical Center).

Aroostook Medical Center (TAMC) - d/b/a Northern Light A.R. Gould Hospital

Fiscal Year End Date Changes: None. Hospital Peer Group Changes: None.

Tables of Select Financial Ratios

Profitability Ratios

These ratios provide information on the ability of the organization to produce a profit. Few hospitals could remain financially viable without a profit (or excess of revenues over expenses), especially over a long period of time. Cash flow would not be sufficient to meet normal cash requirements such as debt principal and investment in fixed or current assets. Six measures of profitability are included:

- Operating Margin
- Non-Operating Revenue Margin
- Total Margin
- Return on Equity
- Net Operating Income (Operating Surplus or Loss)
- Total Surplus/Deficit (Total Surplus or Loss)

Operating Margin

| Hospital Name | FY 2018 | FY 2019 | FY 2020 | FY 2021 | FY 2022 |

Liquidity Ratios

These ratios measure an organization's ability to meet short-term obligations, collect receivables, and maintain cash position. Most organizations that experience financial problems do so because of a liquidity crisis: they are unable to pay current obligations as they become due. Five measures of liquidity are included:

- Current Ratio (without Board Designated and Undesignated Investments)
- Days in Accounts Receivable
- Days Cash on Hand (Current)
- Days Cash on Hand (Including Board Designated and Undesignated Investments)
- Average Payment Period (Current Liabilities)

Current Ratio
(Without Board Designated and Undesignated Investments)

Capital Structure Ratios

These ratios measure how an organization's assets are financed, and its capacity to pay for new debt. Many longterm creditors and bond rating agencies carefully evaluate capital structure ratios to determine an entity's ability to increase its amount of debt financing. Four capital structure ratios are included:

- Equity Financing
- Debt Service Coverage
- Cash Flow to Total Debt
- Fixed Asset Financing

Equity Financing

Asset Efficiency Ratios

These ratios measure the relationship between revenue and assets. The numerator is always revenue that may be thought of as a surrogate measure for output. The denominator is investment in some category of assets that may be thought of as a measure of output. Two asset efficiency ratios are included:

- Total Asset Turnover
- Fixed Asset Turnover

Total Asset Turnover

Other Select Ratios and Data Elements

These ratios/data elements are also of interest to financial data users. These ratios/data elements are included but cannot be classified into the other categories of financial ratios. One ratio and fourteen data elements from the financial data template are included:

- Average Age of Plant (Depreciation Only)
- Net Plant, Property and Equipment (PP and E)
- Cash and Investments (Current Assets)
- Current Assets Whose Use is Limited
- Trustee Held Investments
- Board-Designated and Undesignated Investments
- Fund Balance-Unrestricted
- Temporarily Restricted Net Assets
- Permanently Restricted Net Assets
- Total Gross Patient Service Revenue
- Net Patient Service Revenue
- Total Non-Operating Revenue
- Bad Debt (Provision for Bad Debt)
- Free Care (Charity Care)
- Total Operating Expenses
- Total Advertising Expenses
- Salaries and Benefits

Average Age of Plant (Depreciation Only)
