Maine Health Care Claims Data Bank
Local CPT Codes Data Dictionary

Element Name Database Name	Date Required Type/Length	Description	Warnings
HGCPT901 Procedure Code CODE	CHAR (10)	This field contains the local CPT code used by the payer. This links to the CPT (MC055) field in the medical claims table.	
HGCPT902 Payer PAYER	CHAR (6)	This field contains the MHDO submitter code for the payer submitting payments. The first character of the submitter code indicates the type of submitter. C = Commercial carrier T = Third Party Administrator U - Unlicensed entity	A single payer may have multiple submitter codes because the payer is submitting from more than one system or from more than one location. All submitter codes associated with a single payer will have the same first 5 characters. A suffix will be used to distinguish the location and/or system variations. For a variety of reasons, the Data Bank may include submissions from unlicensed entities. The unlicensed entities will have a payer code beginning with the letter U. If the submitter does become licensed in Maine, the first letter of the payer code will be changed to the appropriate value of C or T and the trailing four characters will remain unchanged. Therefore, a payer code of U0756 may become T0756 in the future.
HGCPT903 Procedure Code Description DESCRIPTION	CHAR (200)	This field contains the description of the local CPT code that was provided by the payer.	
HGCPT904 Data Added EDATE	DATE (8)	This field contains the date the local code was added to the table. The date is in YYYYMMDD format.
